

CH USMAN DEVELOPER

WEB DEVELOPER

ABOUT ME

I am a passionate full-stack developer skilled in creating visually stunning, functional web applications. With expertise in technologies like React, Django, JavaScript, and Python, I deliver scalable and efficient solutions. I thrive on solving complex problems and optimizing performance with innovative design thinking. Always evolving, I embrace emerging technologies to craft impactful digital experiences.

EXPERIENCE

Web Development

- Developed responsive and scalable web applications using React, Node.js, Django, and MongoDB.
- Built and integrated RESTful APIs for secure data communication.
- Created dynamic features like e-commerce platforms, real-time chat apps, and portfolio websites
